EDITION & LICENSING SPECIFICATION

Complete Host & Co-Host Operations Manual • Engineered for 4.95+ Star Ratings, 85%+ Occupancy & Remote Automation.

STR-01 • SUPERHOST STANDARDS

Mastering the Airbnb Search Algorithm & Superhost Quarterly KPIs

How Airbnb ranks listings on Page 1 and the exact operational thresholds you must protect

Airbnb's search algorithm rewards listings that convert views into bookings and deliver zero-defect stays. Earning and keeping Superhost + "Guest Favorite" badges lifts organic booking conversion by up to 34%.

Metric / Dimension	Official Superhost Floor	Elite Top-5% Target	Operational Safeguard System
Overall Star Rating	4.80+ Average	4.95+ Average	Morning-After Check-In Message (SOP-04)
Response Rate & Speed	90%+ within 24h	100% under 5 mins	Automated PMS Scheduled Replies (SOP-03)
Cancellation Rate	< 1.0% Host Cancels	0.0% Host Cancels	Synced Multi-Channel iCal / API Calendar
Stay Volume	10+ Stays or 100 Nights	78%–88% Occupancy	Orphan-Gap Dynamic Discounting (SOP-09)
Cleanliness Sub-Score	4.80+ Stars	4.98+ Stars	Photo-Verified Turnover Checklist (SOP-06)

THE HARSH MATH OF AIRBNB'S 5-STAR SCALE

To guests, 4 stars means "Good hotel stay." To Airbnb's algorithm, four consecutive 4-star reviews (4.0 average) triggers listing suspension warnings. Educate guests subtly via a refrigerator magnet explaining the 5-star scale.

STR-02 • LISTING OPTIMIZATION

Airbnb Listing Title Formulas & The 5-Photo Hero Sequence

Win the click on mobile search results and convert browsers into confirmed bookings

High-CTR 50-Character Listing Title Formulas (No All-Caps or Generic Adjectives)

FORMULA: [Top Amenity/Vibe] + [Property Type] + [Distance to Landmark] + [Bonus Hook]

- *URBAN / BUSINESS: "Penthouse Loft w/ Skyline Balcony • 4 Min to Convention + 1Gbps Wi-Fi"*
- *VACATION / CABIN: "Cedar A-Frame w/ Private Hot Tub & Firepit • 5 Min to National Park"*
- *FAMILY / GROUP: "Heated Pool Villa + Game Room • King Suites • Walk to Beach"*

The First 5 Photos Architecture (Determines 80% of Booking Clicks)

- [ ] **Photo #1 — The Scroll-Stopping Hero Shot:** Twilight exterior, glowing pool/hot tub, or sunlit living room leading out to the view.
- [ ] **Photo #2 — Primary Living & Gathering Space:** Wide-angle (not fisheye) shot taken at chest height showing seating capacity and warmth.
- [ ] **Photo #3 — Primary King Suite:** Crisp white triple-sheeted bedding, symmetrical nightstands, and warm bedside lamps on.
- [ ] **Photo #4 — Signature Differentiator Amenity:** Espresso bar, dedicated dual-monitor workspace, outdoor dining deck, or soaking tub.
- [ ] **Photo #5 — Annotated Floorplan / Layout Graphic:** Shows room distribution, bed sizes, and workspace location at a single glance.

STR-03 • AUTOMATED COMMS (PART 1)

Automated Guest Messaging Templates: Booking Confirmation to Arrival

Plug these ready-to-paste templates into Airbnb Scheduled Messages, Hospitable, Guesty, or Hostaway

Templates #1, #2 & #3 (Instant Booking, 72h Pre-Arrival & Check-In Instructions)

1. INSTANT BOOKING CONFIRMATION (Sent +2 Mins After Booking): "Hi [Guest First Name]! Thank you for booking your upcoming stay with us from [Check-In Date] to [Check-Out Date]. Everything is confirmed on our calendar! Take a breath—you don't need to do anything right now. 3 days before your arrival, I'll send your personal smart lock code, parking map, and digital Welcome Book. Quick question: so we can tailor the house, what brings you to [City]? Ø=ÜÍ ADDRESS: [Full Address] | Ø=Ý SMART LOCK CODE: [Last 4 Digits of Guest Phone]# (Active starting [4:00 PM]) | Ø=Üö WI-FI: Network: [Name] / Pass: [Pass]. Step-by-step photo directions are inside your Welcome Guide: [Link] "

2. 72-HOUR PRE-ARRIVAL & EARLY CHECK-IN UPSELL: "Hi [Guest First Name], we're counting down to your arrival on [Day]! Standard check-in is at [4:00 PM]. Good news: if you'd like to drop bags or check in early at [1:00 PM], we can arrange priority morning turnover with our cleaning crew for a flat $45 fee—just reply 'EARLY' if you'd like me to lock that in!"

3. 24-HOUR CHECK-IN & SMART LOCK DISPATCH: "Hi [Guest First Name], everything is being prepped for your arrival tomorrow! Ø=ÜÍ ADDRESS: [Full Address] | Ø=Ý SMART LOCK CODE: [Last 4 Digits of Guest Phone]# (Active starting [4:00 PM]) | Ø=Üö WI-FI: Network: [Name] / Pass: [Pass]. Step-by-step photo directions are inside your Welcome Guide: [Link] "

SMART LOCK SECURITY RULE

Program your Schlage Encode / Yale Assure lock to automatically set each guest's code to the last 4 digits of their cell phone number, valid only from Check-In Time to 30 minutes past Check-Out.

STR-04 • AUTOMATED COMMS (PART 2)

Automated Messaging: The Morning-After Rescue, Check-Out & Review Loop

Catch minor issues privately on Day 2 before they ever appear in a public review

Templates #4, #5 & #6 (Morning-After Check, Evening-Before Check-Out & Review Trigger)

4. THE "MORNING-AFTER" 5-STAR SHIELD (Sent Day 2 at 9:30 AM): "Good morning [Guest First Name]! Hope you slept great on your first night. Wanted to check in quickly—is the temperature comfortable and did you find everything you needed in the kitchen? If anything at all isn't 5-star perfect, let me know right now so we can fix it immediately!

5. EVENING-BEFORE CHECK-OUT (Sent 6:00 PM Night Before Departure): "Hi [Guest First Name], hope you've had an amazing stay! Friendly reminder that check-out tomorrow is at [11:00 AM]. Our departure list is super simple (no stripping beds!): (1) Load and start the dishwasher, (2) Place used towels in the shower, and (3) Lock the keypad on your way out. Safe travels tomorrow!

6. THE 5-STAR REVIEW CATALYST (Sent 2 Hours After Cleaner Confirms Property): "Hi [Guest First Name], our team just finished up at the house and mentioned you left the place in wonderful condition! We just submitted a glowing 5-star review for you so future hosts know you're an A+ guest. Once you submit yours, Airbnb will publish both—we'd be so grateful for your 5-star feedback!"

ZERO-CHORE CHECK-OUT PHILOSOPHY

Airbnb penalizes listings with burdensome check-out chores. Never ask guests to strip beds, run laundry, or vacuum. Keep check-out to 3 effortless 60-second items.

STR-05 • TURNOVER OPERATIONS (PART 1)

Master Turnover Cleaning Checklist: Entryway, Living Area & Kitchen

Laminate and place inside the supply closet—cleaners must check every box on every turnover

Kitchen & Living Consumable	Minimum Restock Floor Per Stay	Backup Supply Location
Coffee Pods / Ground Beans + Filters	8 Pods + Full Canister + Creamers	Locked Hallway Supply Closet Shelf 1
Paper Towels & Trash Liners	1 Full Roll on Holder + 1 Spare	Locked Supply Closet Shelf 2
Dishwasher Pods & New Sponge	4 Pods + 1 Unopened Scrub Sponge	Under-Sink Caddy + Closet Backup

Zones 1–3: Entry, Living Room & Culinary Staging Standards

- [ ] **Front Porch & Smart Lock:** Sweep welcome mat, wipe door handle & keypad screen, verify lock battery >40%.
- [ ] **Living Room Surfaces & Glass:** Dust all baseboards/blinds, clean mirror/sliding glass streak-free, sanitize TV remote.
- [ ] **Upholstery & Under-Furniture Check:** Lint-roll sofa cushions, vacuum under sofa/rug edges, stage throw blanket neatly.
- [ ] **Refrigerator & Freezer Purge:** Remove all open guest food, wipe shelves & rubber door seals, leave 4 chilled waters.
- [ ] **Appliances & Coffee Station:** Clean microwave ceiling, toaster crumb tray, oven glass; restock 8 coffee pods + filters.
- [ ] **Sink, Dishwasher & Disposals:** Empty dishwasher, polish stainless faucet dry (zero water spots), place 3 fresh pods under sink.

STR-06 • TURNOVER OPERATIONS (PART 2)

Master Turnover Checklist: Hotel-Grade Bedrooms, Bathrooms & Photo QA

Eliminate the #1 cause of 4-star reviews (stray hairs and stained linens) with mandatory photo verification

Zones 4–6: Bedrooms, Spa Bathrooms & Outdoor Patio

- [ ] **The "Zero-Hair" Bathroom Protocol:** Clean toilet base/hinges, scrub grout, polish chrome dry, and lint-roll floor + shower floor LAST.
- [ ] **Hospital-Corner White Bedding:** Inspect sheets under bright light for stains, pull taut, fluff 4 pillows per king bed.
- [ ] **Under-Bed & Drawer Audit:** Check every nightstand drawer, closet hanger count (10/closet), and under bed for lost chargers.
- [ ] **Towel & Amenity Staging:** Tri-fold 2 bath towels, 1 hand towel, and 1 black makeup washcloth per guest; top off soap pumps.
- [ ] **Patio, Grill & Hot Tub Check:** Brush grill grates, verify propane >50%, test hot tub pH/chlorine strip and clean filter.

THE 8-PHOTO CLEANER VERIFICATION RULE (TURNO / BREEZEWAY)

Cleaners do not mark a job complete until uploading 8 timestamped photos: (1) Each made bed, (2) Each open toilet/shower, (3) Open empty fridge, (4) Coffee station, (5) Thermostat set to 70°F, and (6) Locked supply closet.

STR-07 • INVENTORY & SUPPLY CHAIN

The 3-PAR White Linen System & Automated Restock Triggers

Never be late for 11 AM–4 PM same-day turnover waiting on a washing machine cycle

High-occupancy listings cannot wash and dry 3 king duvet covers inside a 4-hour turnover window. Operate on a strict 3-PAR All-White Linen Standard with commercial bleachability.

PAR Tier	Physical Location	Operational Role
PAR Set #1	Active on Beds / Bathrooms	Currently in use by incoming guests
PAR Set #2	Folded in Locked Cleaner Closet	Swapped onto beds immediately at 11:05 AM
PAR Set #3	In Laundry / Backup Bin	Washed off-site or during cycle; buffer against stains

Low-Stock QR Code Reorder System (Zero Stockouts)

- [ ] **Green / Red Bin Divider:** Place a bright Red Laminated QR Card 20% from the bottom of every toilet paper, soap, and coffee bin.
- [ ] **1-Scan Cleaner Alert:** When the cleaner reaches the Red Card, scanning the QR opens a 1-click form that notifies the host/ Amazon auto-order.
- [ ] **Stain Treatment Kit:** Stock OxiClean MaxForce, Fels-Naptha bar, and magic erasers in the cleaner caddy to save $80 sheets.

STR-08 • ASSET PROTECTION

Quarterly Preventive Maintenance & Deep-Clean Audit Schedule

Prevent emergency $600 Sunday-night HVAC or plumbing calls before they happen

Cadence	System / Component	Preventive Action Required	Owner
Monthly	HVAC & Air Filters	Replace MERV-8 filter + check condensate drain line	Lead Cleaner
Monthly	Smart Locks & Smoke/CO	Test keypad codes + replace batteries at <40%	Lead Cleaner
Quarterly	Plumbing & Drains	Snake shower drains + flush tankless water heater	Handyman
Quarterly	Deep Clean & Upholstery	Steam clean rugs/sofas, wash baseboards, flip mattresses	Deep Clean Crew
Bi-Annual	Dryer Vent & Exterior	Vacuum dryer exhaust duct (fire safety) + gutter check	Handyman

THE $250 PRE-APPROVED HANDYMAN RETAINER RULE

Establish a pre-negotiated relationship with two local handymen. Pre-authorize repairs under $250 without waiting for your phone approval so guest issues are solved inside 90 minutes.

STR-09 • REVENUE OPTIMIZATION

Dynamic Pricing Strategy: Base Rate, Seasonality & Orphan Gaps

Why static nightly rates lose 28% in annual revenue—and how to configure PriceLabs / Wheelhouse

Setting a flat $200/night rate leaves thousands on the table during peak concert/festival weekends and causes empty Tuesdays in winter. Deploy algorithmic dynamic pricing with these exact guardrails.

Booking Window / Scenario	Pricing & Minimum-Stay Rule	Revenue Objective
90+ Days Out (Far Future)	+25% Above Base Rate | 4-Night Min	Capture high-budget early planners only
30–60 Days Out (Prime Window)	100% Market Base Rate | 3-Night Min	Build core occupancy baseline (55%+)
7–14 Days Out (Unbooked)	-12% Last-Minute Adjustment | 2-Night Min	Fill remaining weekend inventory
1–3 Days Out (Distressed)	-22% Floor Cap (Never below Min Price)	Monetize expiring nights above cleaning cost
Orphan Day Rule (1–2 Night Gap)	Auto-drop Min Stay to length of gap (-10%)	Eliminate unbookable 2-day holes between stays
Peak Events / Holidays	+60% to +120% Surge | 3–4 Night Min	Maximize RevPAN on 100%-demand dates

CALCULATING YOUR HARD MINIMUM NIGHTLY FLOOR

Minimum Floor = (Variable Utilities/Wear per Night + Prorated Consumables + Platform Fee) × 1.8. Never allow dynamic pricing software to discount below your Hard Floor.

STR-10 • RISK & SECURITY

Ironclad House Rules Template & Party-Prevention Stack

Write enforceable rules that Airbnb Support upholds in AirCover claims without sounding hostile

Copy-Paste Listing House Rules (Enforceable in Airbnb Resolution Center)

1. REGISTERED GUESTS ONLY: Only the exact number of guests on the reservation are permitted overnight. Unregistered visitors or parties result in immediate reservation termination without refund and a $100/person fee.
2. QUIET HOURS & NOISE MONITORING: Strict quiet hours are 10:00 PM – 8:00 AM. Property is equipped with a privacy-safe Minut decibel sensor (measures sound levels only, never records audio). Sustained noise >75dB triggers automated alerts.
3. NO SMOKING OR VAPING ($350 FEE): Strictly no smoking, vaping, or e-cigarettes inside the home or within 15 feet of open doors. Specialized ozone remediation fee of $350 applies if violated.
4. EXTERIOR SECURITY CAMERAS: For your safety, 1 exterior doorbell camera faces the front driveway entrance and records motion only. Zero cameras exist inside private or backyard areas.

The 4-Signal Anti-Party Screening Filter

- [ ] **Ban 1-Night Weekend Bookings:** Enforce a strict 2-night minimum on Friday and Saturday check-ins year-round.
- [ ] **Local Same-Day Booking Alert:** Require manual approval for same-day bookings made by guests living within the same city.
- [ ] **Noise & Occupancy Hardware:** Install a Minut sensor (decibels + crowd Wi-Fi device count + cigarette smoke detection).

STR-11 • INCIDENT RESPONSE

Handling Guest Complaints, Emergency Repairs & AirCover Claims

De-escalate issues to save the 5-star review and win 100% of legitimate damage reimbursements

AirCover Claim Step	Mandatory Documentation Required	Strict Deadline
1. Timestamped Photos	Wide + close-up photos taken by cleaner BEFORE next guest checks in	Before next check-in
2. Keep All Chat on App	Document issue politely in Airbnb message thread (never SMS only)	Within 24 hours
3. Itemized Invoice/Link	Upload original Amazon/retailer receipt + professional cleaning invoice	Within 14 days of checkout
4. Escalate to AirCover	If guest declines or ignores after 72h, click "Involve Airbnb"	Day 4 post-submission

The H.E.A.R.D. Guest De-Escalation Script (When an Amenity Breaks)

"Hi [Guest Name], thank you so much for flagging the [Issue] right away—I completely understand how frustrating that is on vacation."
"I have already dispatched our technician [Name] who can be there at [Time] (or while you are out at dinner). In the meantime, I just sent a $[40] dinner/coffee credit via the Airbnb Resolution Center on us for the inconvenience. Please let me know which window works best for entry!"
